# METAL WORKING TECHNOLOGY

P

**SINCE 1949** 

# **Area** otomotiv

• Area Automotive provides customized mechanical joining solutions for the automotive and manufacturing industries worldwide. We manufacture complex, high-precision and critical components for our global partners.

· Our commitment to operational excellence and engineering know-how has enabled our clients to give us new projects that further expand our capabilities. Area Automotive has become a reliable partner for applications in the areas of surface treatment such as progressive stamping, precision machining, broaching and grinding, heat treatment and various surface coatings.

• We aim to carry out all processes with zero error and we have ISO 9001 quality management certificate. We are constantly working to improve our quality management systems and lean manufacturing practices in order to remain a competitive and reliable supplier.

**SINCE 1949** 

## MASS PRODUCTION

In your projects that require mass production, with our necessary machines for your product. Selects regulations appropriate to the product.

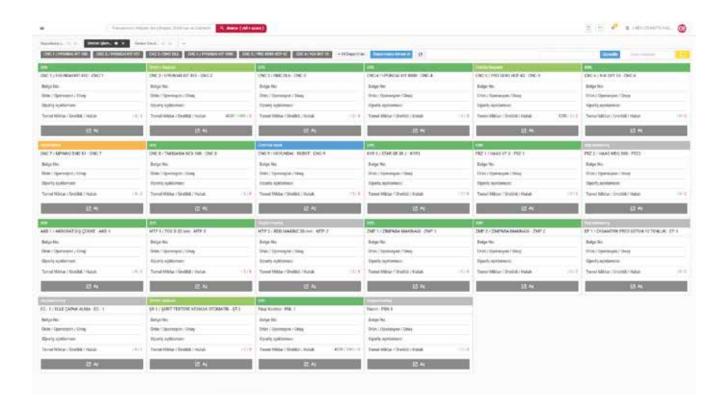

We carry out the production process successfully and carefully follow all the steps from production to quality.

## SPECIAL PARTS

We produce special spare parts that are not mass-produced according to the sample from scratch according to your drawings

## in metalworking With our **70 years** of knowledge turnkey for your projects we offer solutions

#### ERP SYSTEM AND CAM TECHNOLOGIES

We use computer technologies to keep product efficiency and quality at the maximum level from the order to the production process.

## **TURNING & MILLING**

MACHINE		UNIT	AXIS	CAPACITY
<b>STAR</b> SR-38 J	Swiss-type	1	7 Axis	Ø 38 (Max Ø 42)
<b>STAR</b> SR-32 JIII type B	Swiss-type	1	8 Axis	Ø 32
<b>STAR</b> SR-20R type G	Swiss-type	1	7 Axis	Ø 20
HYUNDAI L 210 LMA		1	3 Axis	Ø 120 (10 inch)
MIYANO BND - 51 SY2		1	4 Axis	Ø 52
<b>KIA</b> SKT - 15		1	3 Axis	Ø 52 (6 inch)
TAKISAWA NEX - 108		1	2 Axis	Ø 52 (8 inch)
<b>HYUNDAI</b> WIA KIT - 4500		3	2 Axis	Ø 42 (6 inch)
PRO SEIKI HCP 42		1	4 Axis	Ø 42 (6 inch)
FANUC ROBOT	CVCTEM	1	_	6 Kg

HAAS VF - 3 CNC MILLING	1	4 Axis	508 x 1016 x 635 mm
HAAS MDC - 500 PALLET CHANGER	1	3 Axis	508 x 508 x 635 mm

AUTOMATIC LOADING SYSTEM

#### QUALITY MEASURING DEVICES

MACHINE	UNIT	MODEL
VISION MEASURING SYSTEM	1	ISD - V300A
SURFACE PROFILE MEASURING MACHINE	1	SPM - 1000
HARDNESS TESTER	1	ISH - RD 200
SURFACE ROUGHNESS MEASUREMENT	1	ISR - C 300
